

Our Company

Thursday, 09 October 2008

Financial Systems Company Ltda (FSC), is niche software and consulting services company focused on the collections and debt management process. Combining our extensive specialized experience with the automation and reengineering of the collections process using our specialized collections system Internet Collection System (iCS) FSC has repeatedly duplicated our clients collections productivity and increased recoveries by on average 7%.

Financial Systems Company Ltda. (FSC) is part of the Financial Systems Company group, as well as Financial Systems Company USA INC based in Miami, United States and Financial Systems Company S.A. Chile based in Santiago de Chile. FSC's strength comes from our in depth knowledge of the collections process and our solid world class collections software Internet collection system (iCS). Our long term specialization and international experience has allowed us to include in iCS collections best practices that can significantly improve our clients results. Our integral security and quality management system, conforms to iso 9001:2001 standard (certified by BVQI in 2005 and recertified in 2008) , and is in the process of ISO27001 certification. This would make FSC one a select group of companies in the region with ISO27001m certification.

In this context, we have a comprehensive portfolio of products that includes iCS Enterprise, iCS Express , which is complemented with a complete platform for implementation services, maintenance and training, in addition to our business intelligence systems.
