

## BVQI Certification

Monday, 24 August 2009

FSC is the first Colombian Company that has been certificated by the BVQi under the international standard ISO27001-2005 in all its processes.

The certification process took eight months since its beggining.

This certification confirms the succesful security process implementation that guarantee the integrity and confidentiality of the customer's information resident at FSC and recognizes the success in the procedures that FSC use to efficiently solve the security incidents of its users and the reduction of its services issues.

FSC have demonstrated once again its commitment to offer better, and more reliable products and services to its customers
